

NIKHIL AWASTHI

Manual QA Tester | Web & Android Testing

Lucknow, Uttar Pradesh | Open to Relocate: Pan India | +91 7317262617 | nikhilawasthi9@gmail.com | linkedin.com/in/nikhil-awasthi-qa

PROFESSIONAL SUMMARY

MCA graduate (AI/ML, 2024) and fresher Manual QA Tester with hands-on project experience across web applications, Android apps and REST APIs. Comfortable with the full STLC: requirement analysis, test case design, execution, defect logging and retesting. Executed 44 test cases and reported 11 defects across the Amrutam web and Android platforms; also authored 47 test cases for OrangeHRM, documented 13 defects for InterviewGod.ai and tested REST APIs in Postman. Currently learning Java and Selenium. Detail-oriented, quick to learn new tools. Immediate joiner, open to relocation and remote roles.

TECHNICAL SKILLS

Testing Types: Manual, Functional, Exploratory, Negative, Regression, Smoke, Sanity, Retesting, UI/UX, UAT

Test Documentation: Requirement Analysis, Test Plan, Test Scenarios, Test Cases, Test Data, RTM, Bug Reports

Process & Techniques: SDLC, STLC, Agile/Scrum, Bug Life Cycle, Severity & Priority, Boundary Value Analysis, Equivalence Partitioning

Tools & Technologies: Jira, Postman, REST API Testing, Basic SQL, Chrome DevTools, MS Excel / Google Sheets, Android (real device) testing

Learning: Java, Selenium WebDriver (Internshala certification in progress), Python (basics)

PROJECT EXPERIENCE

Amrutam (Ayurveda Platform) - Web + Android Testing Assignment

Aug 2026

- Performed exploratory, functional, negative, validation and UI/UX testing on the Amrutam website and Android app; executed 44 test cases (33 passed, 75% pass rate).
- Reported 11 reproducible defects (6 Web, 5 Android; 8 Medium, 3 Low) with steps, expected vs. actual result, severity and screenshots; delivered a bug report, test case workbook and evidence appendix.
- Key findings: no OTP resend cooldown/rate limit, name fields accepting numeric-only and whitespace-only input, invalid PIN codes accepted at checkout, missing empty state in search, and profile update blocked by a non-existent State field.

InterviewGod.ai - Web Application Manual Testing

2026

- Analyzed requirements and designed 21 test cases covering UI, navigation, input validation and core interview workflows.
- Executed functional, smoke, exploratory, regression and retesting; logged 13 reproducible defects with severity, priority, steps and evidence in an Excel tracker.

OrangeHRM - Manual QA Test Design & Documentation

2026

- Prepared 47 manual test cases across Login, Admin, PIM, Leave and Dashboard modules covering positive, negative, boundary value and equivalence partitioning scenarios.
- Built a full STLC documentation set: test scenarios, test data, requirement traceability matrix (RTM), defect report template and execution tracker.

ReqRes - REST API Testing Using Postman

2026

- Designed and executed positive and negative test scenarios for GET, POST, PUT and DELETE; validated status codes, headers, JSON body and response time.
- Tested edge cases such as invalid IDs, missing required fields and failed login/registration; documented results in a Postman collection.

QA Pilot - AI-Assisted Test Case Generator (Personal Project)

2026

- Built a single-file web tool using the Claude API that generates test cases and hunts for bugs from requirements, with CSV export.

EDUCATION

MCA (Artificial Intelligence and Machine Learning) - Amity University, Noida | CGPA: 7.64/10

2022 - 2024

Bachelor of Arts (Geography) - CSJMU, Kanpur

2019 - 2021

CERTIFICATIONS & ADDITIONAL INFORMATION

Certifications: Software Testing (Java + Selenium) - Internshala Trainings, Sep-Oct 2026 (In Progress) | SQL (Basic) - HackerRank

Training: Internship & Job Preparation - Internshala Trainings (Enrolled, starts Oct 2026)

Languages: English (Professional), Hindi (Native)

Availability: Immediate Joiner | Open to Relocation (Pan India), Remote and On-site Opportunities
